

# Take your operations to new heights with KitBin® shipping and storage containers.

## A totally new concept in container design

Save time, space, and money, while improving the efficiency of your employees. KitBin containers allow all panels to detach from the pallet, providing a number of competitive advantages:

- Return 300 empty containers per truck—**highest return ratio in the industry**
- Panels are interchangeable and can be replaced one-at-a-time to cut replacement and inventory costs
- Removable walls provide easy access for loading and unloading, improved ergonomics
- Pallet can be used separately

*Four disassembled containers fit into one KitBin: saves up to 75% of trailer space compared to solid-wall containers—up to 30% greater space savings compared to folding designs.*

**Contact us today to find out how the KitBin can lower your costs and improve your operation!**
